

## Share Your College Experience Virtually

Project Title	Share Your College Experience Virtually
Project Summary	US college students! Share your college experience with students in Niamey who are looking to study in the United States. Provide videos and engage in SKYPE sessions with interested students.
Country	United States

## Project Description

We are looking for a few college students to share their college stories, provide video tours of their campuses, and answer questions (via SKYPE) for Nigerien students looking to study in the United States. The intent is to build resources available to the students. Some knowledge of French is helpful, although the intent is for students to practice English. As we are on West African time, you will need to be available early in the morning for SKYPE calls.
